Southern Patriotism in Congress.

The Amnesty Bill before Congress
caused a warm debate in the House
last week between Blaine of Maine and
Hill of Georgia. The conclusion of
Mr. Hill's speech was as follows:

My message to the gentleman from
Maine is this: There are no Confederates
in this House; no Confederate
purposes, desires or ambitions in this
House; but the South is here, and here
she intends to remain. [Enthusiastic
demonstrations on the Democratic
side, and in the galleries.] Let fanatis-
m do its work. Let it pass its nulli-
fying act; trample on the Constitution;
abrogate the pledges of our fathers;
incite raids on our people; multiply
injustices, till they shall be as the
stars of heaven or as the sands of the
seashore, without number; but know
for all these your iniquities, the South
will never again seek her remedy in
the madness of another secession.
[General applause.] We are here;
we are just the father's house, the
house of our brothers, our companions.
We are at home, thank God! [Enthu-
siastic applause.] We come to gratify
our sense of duty, to resist wrong, to
resist not past insults, to reopen the
strife. We come with patriotic pur-
poses, to do whatever in our power
shall to restore an honest, economi-
cal and constitutional government of
the Government. We come, charging
on the Union no wrong to us. The
Union never wronged the South. The
Union has been an unmitigated blessing
to every citizen every State. Every
man of every color, in America. We
charge all our wrongs to that higher
law fanaticism, which never kept a
pledge or law. We sought to leave the
association of those who would not
keep fidelity to a covenant. We sought
to go by ourselves; but so far from
having lost fidelity to the Constitution,
we have gained it, and carried it
with us, with the brave Union men
of the North—followers of Webster and
Fillmore, Cass and Douglass, who you
fought for the Union for the sake of
the Union, who were not to fight
when the battle was ended and the
sword sheathed—with you we have no
quarrel. We felt your heavy arm in
the midst of the struggle, but above
you we heard your better voice, the
voice of kindness, calling upon us as
brothers to come back. We ask here,
to cooperate with you, to do whatever we
can, in spite of all our sorrows, to re-
turn to the Union, to renounce the
country; to make the American
Union what our fathers intended it
should be, the glory of America and a
blessing to the world.

gentlemen, who persecuted you, you
indulgent until you drove us out of
the Union, who then claimed to be
the only friends of the Union, who
were to come back and live with us,
league with death and a covenant with
hell, who you follow up the war when
the soldiers who fought it have made
peace and gone their homes—to you
we have no concessions to make. Our
Martyrs owe no apology to tyrants,
and while we are ready to make
every sacrifice for the Union, we have
but one contention, and that is, the
power to that of patriotic Union men
in order to compel fanaticism to obey
the laws and live in union according
to the Constitution. We do not pro-
pose to compel you to do anything you
never kept them. We wronged the
Union grievously when we left it to be
seced

The Yolo Democrat,

With Two-Page Supplement;
MAKING SIX PAGES EVERY WEEK.

Contains all County Official Advertisements.

WOODLAND, CAL.
Friday, January 21st, 1876.

DOCUMENTS.—We have received from Hon. Jason Watkins a number of documents pertaining to matters Legislative.

DEATH OF MRS. JOHNSON.—The wife of ex-President Johnson died at her daughter's (Mrs. Judge Patterson's) house, near Greenville, Tennessee, at 11 o'clock Saturday night, Jan. 15th.

BANK FAILURE.—The Bank of Temple & Workman, Los Angeles, has failed, but the telegraph reports the assets ample to meet all liabilities, and that the depositors will all be paid shortly.

THANKS.—Hon. J. K. Luttrell has favored us with a complete file of the Congressional Record, containing verbatim reports of the proceedings of Congress thus far in the first session of the forty-fourth Congress.

"PUTS AND CALLS."—We refer our readers to the new advertisement of Messrs. Chas. Larue & Co., Stockbrokers and dealers in "Puts and Calls," 422 Montgomery street, San Francisco, who are extensive operators in this line and who give good references.

Two THIN.—Supervisor Mering is desirous of obtaining notoriety by being noticed in the DEMOCRAT. He had better attend to his business as rancher, money-shaver and Supervisor, instead of libeling men of better reputation than himself.

No REDUCTION.—It is stated in the papers that General Passenger Agent Goodman is authority for saying there will be no reduction in the through rates of fare to accommodate the centennial travel. From Omaha eastward the public will get the benefit of reduced rates.

A \$1000 FOOT-RACE.—A foot-race of one hundred yards between Adolfo Celis and John Westley, for a purse of \$1000, which took place at Agricultural Park, Los Angeles, on the 15th, was won by Westley. Time, ten seconds. A large amount of change handed on the race, Celis being a slight favorite.

SUSPENDED.—The Record says that on Saturday last C. W. Clark foreclosed a mortgage against the Sacramento Herald, an officer was put in charge and the further issuance of the paper suspended. We are sorry to learn this, as the gentlemen who were connected with it have labored industriously and intelligently to make the Herald a success, and deserve reward instead of loss. Doubtless the fact is there is not patronage enough in Sacramento for two morning papers.

S. F. JOURNAL OF COMMERCE.—This is the most complete Journal of Commerce, Agriculture and Mining published on the Pacific Coast. Its late edition of 16,000 copies is said to be the largest ever issued by a purely commercial paper in America. The map in the issue of Jan. 12th, showing at a glance the principal routes and ports of the world in commercial connection with San Francisco, is a very valuable one for preservation and reference. Address S. F. Commercial Pub. Co., 414 Clay St., S. F.—\$5 a year in advance.

PUBLISHERS' CONVENTION.—In response to a suggestion from the publisher of the Napa Reporter to hold a Publishers' Convention in San Francisco on the 14th of February, twenty-seven California newspaper publishers had responded favorably up to last Saturday. A conference of publishers can but result in good, for various reasons. As to what it is proposed to accomplish, that is matter in which we do not deem the public interested, but should be discussed fully and freely when we meet together in Convention. In regard to the time of the gathering we are not particular, but shall endeavor to attend whenever it occurs.

WORTH EXHIBITING.—It is said that Messrs. Flood & O'Brien, of San Francisco, will exhibit at the Centennial Exposition the entire gold and silver product of the Consolidated Virginia and California mines for the month of May. A strong force of men, equal to the task of taking out ore sufficient to yield \$100,000,000, will be put on, and by means of arrangements with Sharon and other mills, the ore will be reduced. It is rumored that it is the intention of Flood & O'Brien to dispose of it to the Government, taking one half in cash and the remaining half in bonds. Negotiations are under way with the Government looking to that end.

RETRENCHMENT.—The Democracy is looked to by the people to inaugurate a thorough and complete system of reform in the matter of financial extravagance, which has been so shamefully and unscrupulously carried on under the rule of the Radical party. They will not be disappointed. As will be seen by our Sacramento correspondence, the Legislature is determined to lop off all unnecessary expenditures of the public money and to reduce the burden of taxation. So it is in Congress. The camps of the Radicals are receiving a thorough purging. And the work ought to be prosecuted with the utmost vigor till the corruptions that have existed so long and ground down the people are exposed, and a thorough system of reform is instituted in every department of the government. And all the people will say Amen.

Our Sacramento Letter.

SACRAMENTO, Jan. 19th, 1876.

EDITOR DEMOCRAT:—We have had a little episode of a tragic character just to relieve the tedium of common legislation. It would be too tame only to have to relate the introduction of bills the reading of the same, with an occasional speech in reference thereto. There are some newspapers that are naturally sensuous and want some nice little personalities in their correspondence to spice them to suit the taste of a large class of readers who only hunt for grossness in the shape of vulgar police reports, or cases of crime, or murders, or fights, and who go to sleep in the gutter and relish highly spiced dishes. Nothing pleases these sensuous sheets so much as to get hold of some innuendo or whispered slander on some one in official position. If charged with libel, this style of paper crawls out through some loop-hole in the law.

"CHRONICLE" REPORTER.—The young man who does the work of the Chronicle about the Legislature, the other day came out in a low flung insinuation on a member of the Assembly, John Wilcox, of Mariposa. That gentleman informed the reporter aforesaid that if he repeated his attack he would resolve himself into a committee of one and cast him out of his window. Wilcox then replied to this, the Chronicle of the 17th came out in a most abusive article, most probably written by Frank Pixley, and this so infuriated Wilcox that on Tuesday evening after adjournment he went into the Senate Chamber and struck the correspondent a heavy blow over the head with his cane. The wound was rather serious and the blood flowed copiously. The young gentleman attempted to use a chair, but Wilcox seized it. He then drew a pistol, but Senators and others were all around him he could not have shot at Wilcox without hitting some innocent person, so he was gently disarmed. Wilcox was ready with his pistol. They each seemed willing to fight. Senators felt aggrieved that Wilcox came into their chamber to seek satisfaction. The moral of this whole matter is about as follows: Correspondents ought to be careful what they write and of whom they write, and men who are written about in these sensational sheets ought to collect like the fellow who was kicked by the jackass, the source from whence it came. It is to be hoped that this matter will end where it is, for the honor of the Legislature and parties concerned.

RETRENCHMENT.—The Senate has caught the spirit of reform and has appointed a Committee on Retrenchment, composed of Laine, O'Connor, Angeny, Evans and Lindsey, who have been diligently at work and have gotten out a report of some length, in which some fine suggestions are made. They in their report do not place the salaries of the executive departments of the State government nearly as high as heretofore. For instance, the Governor's salary is \$9,100, eleven hundred more per annum than he has ever received. They leave off his salary as State Prison Director, which is \$900, and \$200 as a member of the State Board of Education. The Secretary of State has \$3000 more to be added as State Prison Director, making his salary \$5,500 per annum, besides his perquisites in supplying stationery etc. The Controller and Atty.-General each have large fees as ex-officio officers. The Deputies and Clerks are all up to the highest notch. The Committee on Retrenchment have a BILL PROPOSED.

That puts the Governor's salary at \$5,000, all services included, and this in full for all. The Secretary of State is allowed three thousand dollars in full for all the services he renders. The Controller, Attorney-General and the Surveyor-General, the latter being ex-officio Register, each \$3,000 in full for all the services they can render the State. Deputies are put from \$2,400 and \$3,000 down to \$1,800, and Clerks to \$1,500, and most of them \$1,200. Their bill would cut off the paper called the Teacher, now pretended to be published in the cause of EDUCATION.

They would also dispense with the County Institutes, and thus save ten thousand dollars. They would lower the wages of the teachers or make them work more than 20 days of 4 and 1 hour per diem. They would reduce the expense of the military of the State and make a general reduction of all the offices and the salaries to a sum corresponding with the stringency of the times. These high salaries were the result of high prices for labor. They propose to make

SALARIES OFFICERS, at \$1,000 per session. This would have a tendency to shorten sessions and to prevent useless laws from being made—less expense in every way. They complain that

THE CAPITAL OF THE STATE is run at twice what it ought to cost. In short the recommendations of this committee would reduce the expenses fifty per cent., or one-third of the whole would thus be cut off. Their bill will be introduced in a few days. As Joshua and Aaron held up the hands of Moses when they fought the giants, the editors of the State ought to encourage and cheer these men on in the right. The officers may, and most probably will, kick against these innovations; still the people demand them.

HARBOR BILL.—This bill is still under consideration, and old man Soule is working away at it. With all the amendments, there are many who are dissatisfied. This is an important measure, and requires great care in its preparation.

A CAUSE has been decided to confirm Galloway and Badger, but I hear McNeil is left out in the cold. The Fish Commissioners are to be confirmed and some of the appointees of the late Governor refused.

been gotten up in accordance with the suggestion of the Governor's Inaugural Address.

INSURANCE COMPANIES.—The general law upon insurance companies is attempted to be changed by two bills introduced by Tuttle. They are stringent, good laws, and will add much to the security of parties insuring in our State. Some excellent provisions are also being made for the convenience of the people in the different counties of the State. Turner introduced a bill which compels any corporation holding property in any county to file copies of their certificate of incorporation in the Clerk's office of the county where such property is held. This is convenient for assessors, collectors and jurors.

Walter Farrell has introduced a bill to protect persons who hold tickets in any THEATRE OR PLACE OF AMUSEMENT. It provides that every person holding a ticket of admission to any place of public amusement shall be entitled to take possession of any unoccupied seat where his ticket gives him a right to go, except private boxes. No reserved seats shall be held for a space longer than one hour, and if a person be forcibly ejected he shall have an action for damages.

MEDICINES.—There have been six or eight bills introduced on the subject of the practice of medicine, and I know of one more about to be introduced into the Assembly. Graves introduced one in the Senate the other day that seems like a fair proposition. It authorizes the Commission of Physicians to examine any one who has studied five years, and if competent he shall be admitted to practice. A better plan would be to license men to practice specialties. Some persons are proficient in one branch of the healing art and know nothing in another.

CENTENNIAL.—Mr. Evans, from the Committee on the Centennial, reported a bill in favor of making an appropriation for that purpose. It is doubtful if it pass this Legislature, but I believe the people of the State will demand a liberal appropriation to celebrate our 100th anniversary.

The Codes still come in for their share of amendment.—Civil, Penal, and especially Political. Civil Procedure is not so much amended.

TREASURER QUESTION.—This subject has been quite warmly discussed. Hart's bill was finally defeated, and Colusa County cannot let her money out to the highest bidder. It seems to me that there are many objections to this scheme of allowing the county money to be loaned out to the highest bidder. Securities are very rotten, and this would open the door for the wildest speculation. Men would bid more than they could make, and bankruptcy would follow.

"CHRONICLE" REPORTER.—You may remember seeing in the Chronicle of a few days past a dirty attack made on Senator Roach on account of his defense of the bill to establish and maintain a training ship—a good measure—but this young strip-hug, winged by the courtesy of the Senate has a seat on its floor, must step out of his way to try to cast ridicule at one of the most gentlemanly and urbane Senators in the body, simply to make what he thought would be a cheap article. If impudence is wit, the young man is master of the situation.

INDEX.—Letter from Seattle. SEATTLE, WASHINGTON TER, Jan. 2, 1876. EDITOR DEMOCRAT:—I am a long time in meeting my promises, but sticking to the old adage, "better late than never," I will greet you now with a happy Centennial New Year's good wishes, long life and health to all. In the round twelve months, the 100th year of our nation, may all hearts be filled with the pride and love of their country, vie with each other in its promotion, share its prosperity and maintain its respect, knowing that our free home is bounded and surrounded, made and staid in wealth and strength.

And now I desire to let your readers know that the inhabitants of this far away place are alive to all the impulses that agitate the American people in this their good old age, and that the

CENTENNIAL EXHIBITION, Now so close at hand, is often discussed in these parts. A few, I learn, are making calculations to pay Philadelphia a visit. A great variety of specimens and curiosities have been collected and sent from this Northern Coast. Indian relics of great worth are among the collections sent from here.

The citizens of Portland, Or., are already alive to the great interest of celebrating the 4th of July. They have asked the City Council to take early action in the matter, and will make an effort to concentrate all of Oregon and Washington Territory in Portland. The nearest and dearest occasions, which all take delight in, are CHRISTMAS AND NEW YEAR'S. But they are now in the past, and the joys and pleasures which they afforded to the lovers of festivities will be long remembered by those of Seattle. Everything passed off with the greatest decorum, not was even the quietness of the town disturbed by the usual boisterous rowdiness. There are seven churches, commodious and well finished, in this place, and they all strive with a peculiar jealousy to gain the most *et al.* Christmas trees in the churches, and also in private houses; watch parties, to bid farewell to the old and welcome the coming in of the new year, were participated in by many. The making of gifts was of course the greatest feature of these occasions, and hardly any possessing friends or relatives was forgotten in this respect. The spirit of gladness was prevalent among all, as the usual greetings and courtesies were exchanged by friends. Two grand balls were given, which imparted an opportunity for many to "trip the light fantastic toe." And so our holidays passed away and filled all with joy.

THE WEATHER Has been almost one continuous rain storm from the middle of October till now, with but little variation—a few cold snaps, a dozen or so of sunny days to change the monotony. It has been, so far, an extraordinary season, such an one has not been recorded since the advent of man, and may not happen again for many years.

POLITICS, I guess, are dead in these quarters, for I hear no "spouting," nor see any "croppings" in the weekly or daily papers; but all seems to be alive to the COMMERCIAL INTERESTS. Of this and its sister cities. The great advantages which Seattle has are still improving—slow but sure—and all must soon acknowledge this to be the emporium of the North-West. People are building in all quarters of the town. Two very costly bank buildings are just finished; real estate is changing hands at very high figures; and still times are dull, and will be during the present month. This place has more than doubled in wealth and almost in inhabitants in the year 1875, and still there is room and a welcome for more.

ARCATA.

New Advertisements.

MARIE ANTOINETTE NATHALIE POLLARD!

THE DASHING

ELOCUTIONIST

—AND—

POPULAR LECTURER!

WILL APPEAR AT

CENTRAL HALL.

—ON—

Saturday Evening, Jan. 22d,

AT HALF-PAST SEVEN P.M.

ADMISSION.—FIFTY CENTS.

PROGRAMME:

PART I.—MUSIC.

Readings by Nathalie Pollard:

INCONSTANT—ANONYMOUS;

PYRAMUS J. THIBBIE;

CHARCOAL MAN;

ANGELS IN THE AIR;

THE ART OF KISSING.

PART II.—MUSIC.

Readings by Nathalie Pollard:

Callion.

—AND—

"PUTS" & "CALLS."

WE MAKE

"PUTS" & "CALLS"

a specialty. This system of dealing in Stocks

is gaining in popularity every day, as it

enables persons of small means to take ad-

vantage of the rise and fall of high-priced

stocks. Hundreds of persons every week clear

from 200 to 2,000 percent. on money invested in

"Put" or a "Call."

We have a LARGE CASH CAPITAL, and

are thus enabled to fully protect our certifi-

cates.

We have references from parties all over

this coast.

The market is lively; now is the time to

invest.

We also BUY AND SELL STOCKS ON

COMMISSION and loan money on them.

Cost of privilege for ten shares and up-

ward:

\$1 00 Per Share for 10 days;

1 25 Per Share for 15 days;

2 25 Per Share for 30 days.

Send for circular (free), explaining our sys-

tem and giving our distances.

Remittances by Wells, Fargo & Co. or Post-

office order at our risk.

Address:

What Makes a Woman?

Not costly dress nor quality air;
Not jeweled hand, complexion fair;
Not graceful form nor flowing hair;
Not paint, nor curls, nor sparkling eyes;
Not pearls, nor teeth nor sparkling eyes;
Not voice that nightingale outvies;
Not breath as sweet as clove and rose;
Not gaudy gems nor fabrics fine;
Not all the stores and show-rooms;
Nor yet blandishments of art;
Not one, nor all of these combined,
Can make one woman true, refined,
Fit to be called a woman;
But that which in the heart is true,
These outward charms that please the sight
Are naught unless the heart be right.

General Items.

Whatever you dislike in another, take care to correct in yourself.
There are several thousand acres of Government land in Ventura county still unoccupied.
The New Hampshire Democratic Convention met on the 12th and nominated Paul Mary for Governor.
Paul Morris, formerly of the Sacramento Union, has become a permanent resident of San Francisco.
It is stated that the National Republican Convention will be held in Cincinnati on the 17th of June.
About 1,400 young men from the United States are now pursuing their studies at the universities and colleges of Germany.
Japan's Centennial appropriation for expenses is \$600,000, a larger sum than voted by any of the other thirty-six nations.

David Turley is to be executed in Sacramento on the 25th of February, for the murder of David Shaw, at Roseville, in April last.
A wound from the tongue is worse than a wound from the sword; the latter affects only the body; the former the spirit, the soul.
The Marquis of Ripon, the English nobleman who recently came to the Roman Catholic faith, has presented the Pope with \$10,000.
A contemporary advances the opinion that no woman who is formed to excite public admiration is capable of conferring individual happiness.

More than 800 Roman Catholics, voluntary converts to Protestantism, have been confirmed in Louisiana by Bishop Wilmer, of that State.
France has applied for Centennial space for the exhibition of Galleries tapestry and Sevres China, and has asked a space in Memorial Hall for 5,000 pictures.
A gentleman from the Pennsylvania oil regions has purchased 200 acres of oil land at San Fernando and ordered extensive machinery from the East to work it.
A terrific tornado visited Melokelme Hill Jan. 6th, blowing the roofs off from several buildings, uprooting trees and prostrating nearly every fence in the place.

If you have an enemy, don't curse him. If you can't get at the top of his head with a pan of hot coals, ask him to put his autograph in your album. That will melt him.
When a Chinese bank fails, all of the officers have their heads cut off and hung into a corner with the assets; and it has been 500 years since there was a bank failure in that country.
The Last Chance quicksilver mine, in Colusa county, is turning out to be one of the richest in the State, and two and a half dollars per day are being turned out from two small tunnels.

The Republican National Caucus has held a session in Washington to prepare for the Presidential campaign. There was much discussion and considerable balloting about the place.
Blackberries in all stages of growth—ripe, half-ripe, green and in blossom—were placed in the open air at Santa Cruz, two days before Christmas and sent to New York, to tantalize the frozen natives.
Attorney-General Pierpont, in his annual report, urges the erection of more Territorial prisons, and says that "it costs the government \$700 to transfer a single prisoner from Arizona to New Mexico."

A devastating fire took place at Humboldt Jan. 5th, and a young lady named Bertha A. Stephenson was burned to death. A Monte Carlo was the heaviest loser; his loss is estimated at \$50,000. The whole loss is about \$80,000.
The Bar has an overwhelming representation in the new Congress. Of the 170 new members 120 are lawyers; 31 are engaged in mercantile pursuits, 4 are physicians, 3 are bankers, 2 are editors, 6 are farmers and 2 are college professors.
According to the American Newspaper Reporter, 812 newspapers and periodicals were started in the United States and Canada during the last thirty weeks, and 484 deceased in the same period, giving an average of about 27 births and 16 deaths a week.

The Central Pacific Railroad Company have surveyed the route from Williams, a point on the Woodland and Tehama branch road, and west from Colusa, to the town of Colusa, with the intention of having an arm of the road running to that place.
The Cologne Gazette remarks that the American attempt at intervention in Cuba is singularly ill-timed. European Governments will not countenance it, because they wish to see the interests of order, to see King Alfonso's authority more firmly established.
A woman in France has been condemned to death for murdering seven of her children and a granddaughter by pushing needles into their bodies. They were all murdered in infancy, and it was not till the granddaughter died that investigation revealed the crime.

In 1856, California first began the exportation of wool. Since that time the value of that article exported has reached the sum of \$4,988,800. Of the gross total \$3,480,000 was exported last year. The number of pounds exported the first year was 600,000; the last year 48,108,000.
A commercial contemporary estimates the wool clip of next year in this State at 50,000,000 pounds, and thinks that with good seasons in two years it will amount to 60,000,000 pounds annually, and in five years to 75,000,000 pounds. California is now the first wool growing State in the Union.
On the 4th inst., in the New York stock market, \$15,000 Central Pacific Railroad bonds payable in gold sold at \$105; in currency, and \$6,000 of its San Joaquin branch road, gold bonds, at \$97 1/2. The same day, \$15,000 Union Pacific, gold bonds, sold at \$102 1/2; and 515 shares of its stock at \$74 3/8 per share.

Cold feet at night are thus decreed by the Science of Health: Never go to bed with cold feet. Never try to sleep without being perfectly certain that you will be able to keep them warm. To lie one night with cold feet gives such a strain to the nervous system as will be felt seriously, perhaps ending in a fit of sickness.
If we take a piece of horse-radish root about an inch in length, about the size of a large bean, make a hole of a foot or so deep in the ground with a dibble, and let the little piece of root drop to the bottom, a clean, straight sprout will come up to the surface, and this will in time make as clean and thrifty a market piece as could be desired.
The total earnings of gold and silver in the Union during the fiscal year just closed, was \$43,854,705, of which the mint of San Francisco collected \$30,857,000. The total deposits and purchases at the mints were as follows: Gold, \$43,151,584; silver, \$18,904,400—total \$62,055,984. The total expenditures were \$1,267,671, and the total earnings, \$788,467.

To exterminate rats, take copious, the quantity to depend upon the number of buildings or places infested; pulverize it very fine, and be sure and sprinkle some in all the buildings—in a word, wherever they congregate—and in a few days all the rats will be gone. This is very simple and very easily tried, and has proved completely successful several times at different places. No rat has been seen three days after a thorough application.

With the coming Centennial Year the Post will enter upon its Fifty-sixth Volume. This long record, so uniformly marked with the approbation and esteem of the public, affords a substantial pledge for future confidence. Our corps of contributors has never been stronger and more worthy of the audience than at present, and the following list furnishes the best basis of promise for the future:

Just Received.
SOME OF THE FINEST CABINET
ORGANS
EVER BROUGHT TO THIS COAST.
NO MORE REEDY, HARSH TONES.
THE WARREN & CLOUGH
COMBINATION ORGAN.
New and Wonderful Invention.

The newly invented SCHUBERT PATENT
"QUALIFYING PUMP" (Secured by letters
patent in the United States, England and
Canada). An invention having a MOST IM-
PORTANT BEARING on the future reputa-
tion of Reed Instruments. By means of
which the tone of reeds, such as tube
Organs of six or eight sets of reeds, and the
QUALITY of tone rendered equal to that
of the best Pipe Organs of the same capacity,
thus furnishing all the desirable character-
istics of the large Church Pipe Organ, in a
case the size of an ordinary Cabinet or Par-
lor Organ, and at the moderate price of Reed
Organs. By means of this invention, an
Organ containing two sets of reeds becomes
equal in volume and power, and VASTLY
SUPERIOR IN QUALITY AND BEIL-
LIANCE OF TONE, to an ordinary Reed
Organ of six or eight sets of reeds. One of the
greatest features of this invention is the
peculiar facility with which it adapts the tone
of the instrument to ACCOMPANY THE
VOICE IN SINGING, the effect upon both
singer and listener being charming beyond
description. This ingenious invention con-
sists in the construction and application of
sets of wood or metal, placed so as to operate
in connection with the reeds, each tube
having an opening on the upper side at the
rear end, through which the reed enters, and
passing through the reed enters, and
through which the sound produced by the
reeds is sufficient to plant an acre. 100
pounds of seed will be sufficient to plant an
acre. In its great utility of four, it is
able to run, and is many new kinds of
Organs of six or eight sets of reeds. One of the
greatest features of this invention is the
peculiar facility with which it adapts the tone
of the instrument to ACCOMPANY THE
VOICE IN SINGING, the effect upon both
singer and listener being charming beyond

in connection with the reeds, each tube
having an opening on the upper side at the
rear end, through which the reed enters, and
passing through the reed enters, and
through which the sound produced by the
reeds is sufficient to plant an acre. 100
pounds of seed will be sufficient to plant an
acre. In its great utility of four, it is
able to run, and is many new kinds of
Organs of six or eight sets of reeds. One of the
greatest features of this invention is the
peculiar facility with which it adapts the tone
of the instrument to ACCOMPANY THE
VOICE IN SINGING, the effect upon both
singer and listener being charming beyond
description. This ingenious invention con-
sists in the construction and application of
sets of wood or metal, placed so as to operate
in connection with the reeds, each tube
having an opening on the upper side at the
rear end, through which the reed enters, and
passing through the reed enters, and
through which the sound produced by the
reeds is sufficient to plant an acre. 100
pounds of seed will be sufficient to plant an
